

WORKING TOGETHER TO WORK TOGETHER AGAIN:

# SAFE SURFACES

[SOELBERG.COM](https://soelberg.com)

A dark, empty office with large windows and desks. The scene is dimly lit, with light coming from the windows in the background. Several desks with computer monitors and office chairs are visible, arranged in rows. The overall atmosphere is quiet and somewhat somber, reflecting the 'new normal' theme.

# PREPARING FOR THE NEW NORMAL

As offices, restaurants, schools and streets sit empty, our desire to return to normalcy increases. But, some fear for their safety. Let Soelberg keep you safe with a variety of surface solutions that give you the confidence you need to get back to work.

**SAFE SURFACES.**

 **SOELBERG**

# MATERIALS MATTER

With a variety of porous and non-porous surfaces that are easily cleanable and high performing, Soelberg has all your office surfaces covered to keep you healthy.

**MUTO PET**

**GLOW ACRYLIC**

**TOUCH MELAMINE**

**ORA ACRYLIC**

**3D LAMINATE**

## MUTO PET DESK DIVIDER

---

Divide and enclose desks with soft sound absorbing PET desk dividers. As noise from video conferencing increases, productivity and concentration do too with MUTO. Easily cleaned with bleach, PET remains sanitary and sophisticated.

[SEE MORE MUTO](#)

# MUTO PET DIVIDER

Divide the open-concept floorplan with room dividers that absorb noise. And, since PET is bleach cleanable, you can focus on creating social distance and division without compromising the safety of the team.

# GLOW ACRYLIC WRITEABLE SURFACES

Highly resistant to scratching and cleanable with alcohol, put your desk dividers and writeable wall panels to work by keeping track of your day-to-day responsibilities.

# TOUCH MELAMINE DESK DIVIDER

---

Melamine surfaces are durable and cleanable. Your workload becomes your goal instead of avoiding bacteria. Make your work space even more unique with equally performing added MUTO and GLOW surfaces.

# ORA ACRYLIC TABLES

You need table surfaces that perform without compromise. Durable, renewable and easily cleanable, ORA makes for the perfect surface solution. Available in a variety of bold to muted colors, staying safe can be beautiful too.

# 3D LAMINATE TEXTURE

We customize to your specific needs. In larger common areas or small intimate spaces, 3D laminated panels are non-porous and can withstand some of the harshest cleaning chemicals for safe dividing and decorative surface treatments.
